COMPANY PROFILE

INTRODUCTION

Rupraj Technical Services has been engaged in area of Belt Conveyors, Air Pollution Control Systems & Instruments since 1999. Headquartered in Ahmedabad, India, the company has developed its product range through a dynamic process of diversified growth while always keeping at the back of its mind establishing the goodwill and deep rooted values of customers service & high Quality of Products and Services.

What differentiates our company from our competitors is the fact that we are the only company in India that we are a one stop shop for the products that we deal in and hence, we can offer the best techno-economics solution for any application...

INFRASTRUCTURE & CAPABILITIES

The Company has well equipped infrastructure of its own backed by state of the art manufacturing facilities & in house testing facilities of its principals and sub vendors. Our well trained and experienced technical team of engineers bring together several years of accumulated industry experience which enables us to offer custom made products and systems that are designed to exceed industry standards, at very competitive price. Our Investments in the information systems as well as fully computerized operations enable us to process activities faster with a high connectivity with our valued customers.

Several Customers in Power, Steel, Cement, Fertilizer, Chemical, Ports, Refineries, Glass, Workshops, Foundry, Metal, etc. have benefited by the use of equipment supplied by us by the way of improved plant performance, savings in operation & maintenance cost, reduced plants losses of all of which provide an attractive payback justifying the investment decision.

COMPANY MISSION

Rupraj Technical Services is a **Solution Provider**. We strive to provide **quality & reliable** products to enable customers to **enhance their productivity and investment**. We **respect** all Stakeholders namely Customers, Suppliers, Employees and the Community.
